

Hose Handling Systems

Add a Hose Handling System (and Pump Pack) to Ground Heater models to thaw even faster, or increase size of area for frost prevention, or concrete curing. This rugged accessory provides easy use and storage of Heat Transfer Hose and easily fits inside a pickup truck box. All units are equipped with Heat Transfer Hose filled with Heat Transfer Fluid, leader hose, quick-connect brass fittings, and electric foot pedal rewind system.

Hoses	ft	2 x 1,500	2 x 1,100	1 x 1,100	4 x 750
Fittings		HTH, HTF	HTH, HTF	HTH, HTF	HTH, HTF
Approximate weight	lbs	1,850	1,550	1,120	1,850

4-Port Remote Manifold

For thawing ground or curing concrete: Use with Hose Handling System to thaw ground or cure concrete with Pureheat Hydronic Air Heater. 4-port supply/return manifold with heavy duty brass quick-connects makes hook up of thawing, curing, or Xchanger hoses easy.
